

# Li Mingliang

Assembly Engineer

▣ Started at Kimball Electronics in 2006

- Li lives in Najing, China. His hobbies outside of work include playing badminton and watching television.
- A favorite memory Li has with Kimball Electronics is traveling to Jasper, Indiana, for the Kimball Electronics Engineer Council Meeting. His favorite office tradition is celebrating the company's anniversary. Each location celebrates differently. China had a large celebration, and Li has a souvenir to commemorate the event.
- Li's proudest moment with Kimball Electronics was when the company won third place in the Jiangsu Province Innovation and Technology Competition. As a result of studying new technology and learning from sister plants, he reached key customer 0 PPM requirement for TH(through hole) void rate in selective welding.
