

Jason Grossman

Manufacturing Engineer
Team Leader
KEIND

▶ Started at Kimball Electronics in 2022

- Jason lives in Indianapolis, Indiana with his wife and 3 children. In his free time, he enjoys playing his guitar and going to music festivals. He also enjoys hobbies such as hiking, camping, and fishing.
- Kimball Electronics became Jason's Employer of Choice because of the challenging tasks and opportunities for advancement within the company. Jason began working toward his undergraduate degree in order to prepare for a higher level of achievement in his career, and earning this is an achievement he is most proud of.
- In his position at Kimball Electronics, the responsibility Jason enjoys most is the challenge of bringing a product to market and seeing the pieces come together along the way. The culture of the company is unique to him because he feels that management has been able to maintain a connectedness that is often lost in larger companies despite its global operations.
